To Whom It May Concern:

As the growing demand for construction services tested the budget constraints and manpower of our small city, we looked at outsourcing the Building Department work to M. T. Causley, Inc. in July 2007.

The City of Anna Maria elected officials and administrative staff were most impressed with the level of Company Professionals providing construction inspections, testing and consulting services.

As we approach our year anniversary in partnership with M. T. Causley, Inc. we are most pleased with their high level of field experience and their willingness to save us time and money by meeting deadlines and budget requirements.

M. T. Causley has worked with our city of Anna Maria to provide flexible, customized service to suit our administrative needs and the needs of our residents.
